

Task Force Marne Heroes of the North

America's volunteer force is a national treasure. You would be awed, amazed and proud if you saw what we see young Americans are doing in this environment every day. The intent of the "Task Force Marne Hero of the North" is to share some of the stories of what we see our Soldiers, Sailors, Airmen, Marines and Civilians do. Daily, Task Force Marne leaders select one individual from across the task force to be recognized by the entire organization because through their duties and actions, this particular military professional exemplified the best that the Armed Services and this nation have to offer. Their outstanding performance is announced across the airwaves at a TF Marne daily update, their picture and story is captured and hung in the Task Force headquarters, and they receive a certificate of achievement (worth promotion points for some) and a Commanders' and Command Sergeants' Major coin.
